Agenda

- **Current metric list**
- **Web Page**
- **Downloading the queries**
- **Running the queries**
- **Sample query**

Metric Queries 8 Metrics

- Sep 01 Metric Goals Established
- Currently eight performance metric goals
 - ✓ Capital Asset Errors
 - Capital Assets Not in Use
 - Capitalization Code "N"
 - Capitalization Code "S"
 - Capitalization Code "D"
 - ✓ Acquisition Cost Errors (records added w/acquisition cost = \$1.00)
 - ✓ Asset Category Errors (Asset code "G" or "Y")
 - ✓ Asset Identification Errors (Serial No/Location Errors)
 - ✓ System Use - UICs (# of UICs logged onto DPAS)
 - ✓ System Use - Users (# of Users logging onto DPAS)
 - ✓ Inventories Past Due (Assets not inventoried in over 3 years)
 - ✓ Bar Code Errors (Missing bar codes/incorrect format)
- Queries on the Web
- Run Monthly

DPAS Monthly Statistics/Metrics

All Navy Summary (Metrics messages and reports)	These reports/messages contain monthly overall DPAS statistics and performance metrics for all Navy.
Major Claimants (UIC Detail) Metric Reports	These reports include the performance metrics for each major claimancy. Lists all UICs within the claimancy using DPAS and their goal/metric performance for the month indicated.
Metric Queries	These files (.iqr) are Eureka queries used to compile all metric data. To use these queries download each query to the local desktop. Eureka must be installed on the local desktop to process.

DPAS Metric Queries ←

Instructions:

1. Download the query file to the local desktop before running. You must have "Eureka" installed on the local desktop to run these queries. To download the query:
 - a. Click on the file to be downloaded.
 - b. Check "Save this file to disk".
 - c. Select a file/directory on the local desktop (i.e: c:\Eureka).
 - d. Press "OK" to save the file.
 - e. Once downloaded and saved double click the saved query.
 - f. Select Print Preview and query will process.
2. For assistance call the Navy DPAS Support Team.
[Click here for information](#) on how to contact the team.

Metric Queries

Running the Query

1. Click on Filter Icon (funnel)

2. Click on Detail

3. Enter your UIC

4. Click Add

5. Click OK

The screenshot shows the EUREKA: Reporter Designer interface. The main window displays a report layout with sections like Top Margin, Page Header, Detail, Page Footer, Document Footer, and Bottom Margin. The Detail section contains a table with columns StockNbr, BarCd, EffDt, LastInvDt, SerialNbr, and Document Footer. A dialog box titled 'Sort Order/Filter: C:\Inventories%20Past%20Due%20Error%20Metric%20...' is open, showing the Filter tab. The dialog has a 'Select Query Data When' section with fields for Object, Operator, and Value1. Below this is a list of filter criteria: '0: EffDt Less Than or Equal To 19990101', '0: InvUIC Equal To N00023', and '0: LastInvDt Equal To 00000000'. The 'Columns' tab is also visible, showing a list of fields including StockNbr, BarCd, EffDt, InvUIC, LastInvDt, SerialNbr, and Document Footer. The 'Add' button is highlighted, and the 'OK' button is also visible.
